

1. Write a program to find maximum between two numbers
2. Write a program to check whether a number is divisible by 5 and 11 or not
3. Write a program to check whether a year is leap year or not
4. Write a program to input any alphabet and check whether it is vowel or consonant
5. Write a program to check whether a character is uppercase or lowercase alphabet
6. Write a program to count the total number of notes in given amount
7. Write a program to find all roots of a quadratic equation
8. Write a program to input marks of five subjects Physics, Chemistry, Biology, Mathematics and Computer. Calculate percentage and grade according to following:
 - Percentage $\geq 90\%$: Grade A
 - Percentage $\geq 80\%$: Grade B
 - Percentage $\geq 70\%$: Grade C
 - Percentage $\geq 60\%$: Grade D
 - Percentage $\geq 40\%$: Grade E
 - Percentage $< 40\%$: Grade F
9. Write a program to input basic salary of an employee and calculate its Gross salary according to following:
 - Basic Salary ≤ 10000 : HRA = 20%, DA = 80%
 - Basic Salary ≤ 20000 : HRA = 25%, DA = 90%
 - Basic Salary > 20000 : HRA = 30%, DA = 95%

The current year and the year in which the employee joined the organization are entered through the keyboard. If the number of years for which the employee has served the organization is greater than 3 then a bonus of Rs. 2500/- is given to the employee. If the years of service are not greater than 3, then the program "
10. Write a program that prints numbers between a starting number and an ending number, inclusive. The starting and ending numbers should be entered by the user.
11. Write a program to find the sum of all even numbers up to a given integer 'num' and number starting from zero. Make use of a do-while loop.
12. Write Java Program to print n natural numbers.
13. Write Java Program to print sum of n natural numbers.
14. Write Java Program to print product of n natural numbers.
15. Write Java Program to check the prime number or not.
16. Write Java Program to print factorial of a numbers.
17. Write Java Program to print n Fibonacci numbers.

18. Write Java Program to print perfect number or not.
19. Write Java Program to check given number strong number.
20. Write Java Program to check given number is Armstrong number.
21. Write java Program to print sum off all digits.
22. Write Java Program to reverse given number.
23. Write Java Program to check given number is palindrome or number.
24. Write Java Program to check given number is Xylem/phloem
25. Write Java Program to check given number is Happy number.
26. Write Java Program to check given number is prime number.
27. Write Java Program to check given number is neon numer.
28. Write Java Program to swap two numbers without 3rd variable.
29. Write Java Program to check given number is Buzz number.
30. Write Java Program to do sum of all numbers until you get single digit.
31. Write Java Program to check given year is leap year or not.
32. Write Java Program to find alternative prime numbers.
33. Write Java Program to find twisted prime number.
34. Write Java Program to check given number is sunny number or not.
35. Write Java Program to check given number is Automorphic number or not.
36. Write Java Program to check given number is Duck number or not.
37. Write Java Program to check given number is Bouncy number or not.
38. Write Java Program to check given number is Mistry Number or not.
39. Write Java Program to check given number is Smith number or not.
40. Write Java Program to convert decimal to Binary
41. Write Java Program to convert decimal to octal.
42. Write Java Program to convert decimal to Hexadecimal
43. Write Java Program to convert Binary to octal.
44. Write Java Program to convert Binary to decimal.
45. Write Java Program to convert Octal to Decimal.
46. Write Java Program to convert Octal to Binary.
47. Write Java Program to convert Binary to Hexadecimal
48. Write Java Program to convert Hexadecimal to Binary
